Subject: Proposed Plan east waterway cleanup

(b)(6) and I took a 2 hour free community-offered boat ride on the East Waterway. It was so enlightening and well done with representatives from the Marine HS and neighborhoods along the waterway.

It is a MUST to clean up for so many peoples: native Americans, wildlife, our folks today and for future generations.

PLEASE make the waterway a priority. I know you have many, but this is a disgrace to our misuse of land and development.

With Kind regards,

(b) (6)
Seattle
